## Security environment Gelati Cathedral

Dear Ladies and Gentlemen,

First of all, we express our respect to you and we are happy to cooperate with you. It is an honor for us to participate in the important project, which is being carried out in relation to the world cultural heritage - the Gelati monastery complex.

As you know, according to the negotiation, our company "Quadrex Gerüstbau GMBH" has to implement a complex and responsible project, unified/temporary roofing of the Gelati Cathedral with the constructions and material of the company "Layher".

Due to the complexity and large scale of the case, it is necessary to observe the highest security measures.

We would like to officially ask you to temporarily close the monastery to visitors during the 6 weeks when we have to work on the monument. It is necessary to create a safe environment. Our team members will not be able to work in an environment where security is not fully protected.

Specialists will have to carry out work at dozens of meters above the ground, and at this time they should not additionally think about the fact that as a result of an accident, from which none of us are insured, the lives of the visitors below will be in danger.

Sincerely,

  
Julia Bisinger
